PROJECTS

Tech Blah Blah Blog | github.com/bcassellius/tech-blahblah-blog.git | <https://peaceful-harbor-61483.herokuapp.com/>

- This is a CMS-style blog site created from scratch.
- This app allows users to interact in an online format.
- Tools/Languages: MVC paradigm, Express.js, MySQL, Sequelize, express-handlebars, express-session, dotenv, bcrypt

Book Tracker | <https://github.com/bcassellius/book-tracker.git> | <https://dry-wildwood-65158.herokuapp.com/>

- This live app allows a user to login and keep track of books.
- As part of a 4 person group, we worked to create this app from scratch.
- Tools/Languages: Express.js, MySQL, Sequelize, express-handlebars, express-session, dotenv, bcrypt, jest
